STATE FARMS FOR JOBLESS SENATE PLAN

Senator Michener Disapproves at Lack of Unemployment Program

OTTAWA, Oct. 15.—Opposition of the government was mingled with criticism in the Senate Friday when the elder statesmen returned to the Senate to apply to the Speech from the Throne. Senator John Lewis said his disappointment that the government had not given any hope of a constructive program to help the work for the unemployed. He suggested the establishment of state farms where men could live and work on their own support and learn farming.

Another suggestion by Senator Michener was that the engineering should be organized to develop the gold quartz and phosphate deposits which the government could locate and mine in fields in the west.

NOTES: IMPORTANT PROBLEM

Sen. John Lewis agreed that unemployment was the most important of Canada's problems. The solution of that problem could be judged only after experience. The Senate should be given a place for permanent discussion.

Senator Rudolph Lemieux expressed his misgivings over the conference and the results of the conference were not fully predictable to expect the various Empires to reach complete agreement on precedents.

The present prime minister had been instrumental in bringing about change in Great Britain even made that country. Senator C. E. Tanguay, who has been a member of the Senate since 1911, demanded Mr. Bennett's attitude at the conference. He said that every other Dominion member present.

Mr. Tanner denied that Canada's independence was impaired by trade agreements.

Body of Storm Trooper Is Found Bullet Riddled

BERLIN, Oct. 14.—A bullet from Brumwick to the newspaper Tageblatt said today that the body of a member of the Nazi storm troopers had been found riddled with bullets near Berlin.

Kampe had been sought by the police for some time in connection with the shooting of a number of public buildings in the vicinity of Brunswick. It was said also that he had been sought because he had been accused of having killed his wife because he had disobeyed the orders of his superiors.

The police said that the circumstances of the killing seemed to corroborate reports of the existence of a secret Nazi organization within the Nazi party.

PLANS AIR FORCE

MADRID, Oct. 14.—Spain intends to create a modern military air force on a par with the United States. Premier and Minister of War Manuel Azaña had announced plans and types of planes. This campaign is intended to be carried on in the Spanish air force of about 150,000 men which is under reorganization.

DEALS EXCELLENT.
The ideals of the League are expressed in the covenant which has been promulgated. But the attitude of signatory governments is to interpret the obligations as being merely those of inducing its members to treat seriously obligations into which it has entered. In so far as it does not interfere with the League's policy, it should be not only allowed but heralded and highly称赞ed.

The Japanese does not say: "My country right or wrong," because he is not sure whether it is right or wrong. He does not put the interests of his own country first. For him, the League is a means to an end.

This sturdy, compact and isolated nation, which is too fond of the rock on which the League of Nations must be shipwrecked.

As an eager pupil of the League, Japan has learned that its main object is to promote international cooperation and to achieve international security. It has learned that the suspension of the 200 treaties of arbitration and conciliation it has promoted to its advantage.

Japan has learned that the maintenance of friendly relations with its neighbors is the best guarantee of its safety.

It has learned that the League of Nations is a failure, but a ridiculous failure.

When put to the test it has proved incapable of compelling disarmament, of checking or punishing acts of aggression, of compelling the League to induce its members to treat seriously obligations into which it has entered.

Pledges given in the paper on which they are written, if these solemn obligations to the contrary, have not been honored, the League has been dismally maltreated, immensely maimed and retarded.

Japan has learned that the League, torn by internal dissension and by infighting with the whole strength of the League, is unable to sustain its quarrels and the restraint and punishment of nations that are not entering on a course of aggression.

It has obtained even possible success in the realization of its aims, but it has not been a failure but a ridiculous success.

When put to the test it has proved incapable of compelling disarmament, of checking or punishing acts of aggression, of compelling the League to induce its members to treat seriously obligations into which it has entered.

SATURDAY, OCTOBER 15

WILL PARLIAMENT IGNORE THESE?

The prediction is made at Ottawa that parlia-
ment may adjourn before the end of the month
dealing with nothing at this time but the "money
question."

If that happens the event will belie the promise
of the opening days that the members intend to
give some serious consideration to the outstanding
questions of the hour before they take recess.

There have been no adjournments until measures
have been taken which effectively deal with the growingly
grave unemployment situation until it is found out what our Government has been doing to
open markets in foreign countries for our surplus
agricultural products, and until "the money ques-
tion" has been dealt with.

These items are of more importance than a series
of agreements aimed at shifting trade from foreign
countries to Empire countries, commendable as that
object is. Canadians are entitled to measures
which in a time of plenty, Parliament cannot
ignore that fact and retain public confidence.

FASCITALY

Mussolini says the biggest thing Fascism has
done for Italy is not the building of roads and
bridges, but the infusion of a new spirit into the
people.

That is not an empty boast. The Italy of today
is not the Italy of pre-war days. It is a different
country, with a new spirit, a new energy, a
new distinctive character, and a future that is
more promising, and in some quarters a cause for
apprehension.

Italy is a country of small resources, inhabited
by the same people and their children. Nothing
has changed but their leadership. Whether that
has been altogether good, or whether it would be
acceptable elsewhere, no one can doubt that it has
vision, enterprise and courage.

Canada, too, has shown that she can do
much with a greater display of those qualities at
the centre of things. Our present Government has
initiated Mussolini in some respects, most of them
restrictive and tending to strangulation of industry and
trade. What is needed is some of Mussolini's
genius for constructive statesmanship.

HANDS OFF! THE WAR LORDS

Shanghai reports that China from east to west
and from north to south is afflame with a new civil
war, and while several of the war lords are
at war that happens in other large country
it would excite world-wide interest and alarm. In
China it is the more or less normal condition, and
the indefinitely protracted state of things.

We must all wait and see what developments of
armies, battles, slaughter and pillage as though
these events were taking place on another planet.
China lies outside the sphere of influence, and even
the sphere of interest, of the western powers.

China, like Canada among others, could do
with a greater display of those qualities at
the centre of things. Our present Government has
initiated Mussolini in some respects, most of them
restrictive and tending to strangulation of industry and
trade. What is needed is some of Mussolini's
genius for constructive statesmanship.

supply a larger share of Britain's wheat requirements.
But it will not increase the aggregate world
demand for wheat, nor the price that British buyers
or other buyers must pay for wheat.

The traders on both sides of the ocean seem to
think it is quite as likely to depress the world price,
and therefore the price in Britain, as to raise it.

Poems That Live

LITTLE HANDS

Soft little hands that stir and clutch,
Like fern fronds curled and unbold,

While baby faces lie in such.

What is it you would sleep and hold,
Wandering outstretched with willful touch?

O fingers small of shell-tipped rose,

How soft your hands must hold so much!

How full your hands must hold so much!

How full, how full, how full!

RELATIVES AGAIN STICK NOSE IN

DEAR MISS DIX—My husband is getting along well in his profession, but has not yet reached the goal he has set for himself. I have a very pleasant position, doing just the work I want to do, and we are both very happy, but the trouble is this:

My relatives feel that I am disgracing myself and reflecting on my husband's ability to support me because I am working. They claim that I am keeping some girl out of a position who needs more money than I do. I am doing what I can to help him all I can. Also, that the more money we earn, the more we can save and the more we can live. Am I right in the regulations? —S. T. G.

I consider that you are perfectly right and that it is a waste when her husband is trying to be his own affair. If she can help him more by earning money than she can by doing his cooking and washing and the like, then I think she should keep on with her job. It is the result that counts, not the means.

DOROTHY DIX.

The idea that every woman should retire to the kitchen on her wedding day and that it is a natural result of her having married him is simply absurd. There is no place in these days, when virtually every girl follows some gainful occupation before marriage and when we have come to expect the economic independence of women, for a woman to earn \$5 or \$10 would do better. It is as foolish as it would be to put a hundred horse-power engine to do five horse-power jobs.

It would be that men have a right to expect their wives to work outside the home and many a husband who boasted that his wife did not work when they got married made of her a veritable drudge at home.

But husbands have come to think the traditional viewpoint of this situation is natural. They feel that there is no more chance in a woman making money to buy the bread for her family than there is for a man to earn the bread itself for it. So long as she is helping her husband she has a right to expect him to be equally honest and most pleasant for her.

Also, husbands have come to see that there are many women who are born with some special talents and who are willing to work that they get a kick out of doing it that men get out of doing.

HIS WEIGHT WENT UP AND UP

Now He's Reducing Over 1 lb. a Week

More Active and Less Tired

All big men—and big women, too, for that matter—should read this story. It may help them.

"I am only a smallish man, that is in height, but big by the other side. I had noticed that I was tired first, but eventually it got that I was a great deal tired. I used to walk about the house, thinking that I was tired by the time I'd walked three yards. I took advice and had a doctor tell me not to eat, leave this and that out, and when I followed his advice, I already at once I only got heavier."

"Then I saw in a paper something about the good that Kruschen salts was doing for stout people. I bought some and took it. I was so pleased to know that I have reduced my weight. I am now much more active and less tired—it has really done me good. If this letter is any good to you, please pass it on to all people who are inclined to stoutness."

Gookin

Gookin is a surname derived from the Gaelic word gugan, meaning a "boy." Sometimes it was applied to boys of the family.

The arms we show are those of Gookin, who settled in Virginia. His brother, Daniel, left Virginia and established his home in Roxbury. The arms here shown are the same as those of Daniel Gookin, Jr., son of the Roxbury settler.

REMEMBER CASSEROLES

If you know how to make愿望ing casseroles, don't forget preparing a casserole dish. Storing will not injure its flavor and in most cases it will keep longer if it is not served immediately. Creamed dishes are easily reheated, also.

Unlike most salts, Kruschen is not merely a laxative. It is a combination of six salts which have a tonic influence on the body. Kruschen salts keep the system free from encumbrance. The salt which Kruschen salts regularly expels, it will expel again when you are fatigued. Nature is liable to take the defensive measure of storing up fat in the body, and this is the way in the form of fatty tissue. Kruschen salts is obtainable at all drug stores at 40¢ and 75¢ per bottle.

The Housewife's Idea Box

Colloid bed springs are easy to keep clean in this way. Use your radiator brush to brush the oil off. A little polishing oil on the brush will help to keep the coat from flying away. It is a good idea to have a muslin cover for your colloid when you are not using it. This cover can be easily removed and cleaned.

HALITOSES is not a pleasant subject, but it is better to be better about it than not to know the remedy. It is not a disease, but it is general belief a mouth wash is not necessary to remove the cause of bad breath. It's a big mistake to believe this.

Ever since our mothers told us to gargle with water, people have been fighting the enemy of sex appeal.

More breath-control

and you don't know nothing of the cause of halitooses, know nothing of the causes that are affected with it. And this, in my opinion, is greatly to be regretted.

They are more disagreeable, more beauty-destroying, than a repulsive brute.

The majority of people have

the idea that halitooses is merely a temporary condition.

Of course, bad teeth, bad gums and the like are causes of halitooses.

There are many other causes of halitooses.

There are a great many internal disorders that sometimes cause halitooses. Digestive disturbances, heart trouble, kidney trouble, constipation by including sufficient fresh fruit and bulky food in the diet, and the like.

Halitooses should never be neglected.

It is not a disease, but it may

become one if you are not aware of it.

HOOVER'S RACE LOOKS LOST IN MAGAZINE POLL

Literary Digest Straw Vote Shows Roosevelt Leads in U.S.

NEW YORK, N.Y., Oct. 15.—One month before the presidential election day, Mr. and Mrs. Harry S. Truman, the literary Digest straw poll covering 38 states shows Franklin D. Roosevelt with 53.3 per cent of the vote, followed by Herbert Hoover with 39.9 per cent, and Norman Thomas, the socialist candidate, with 5.6 per cent. The results were led in six New England states and New York, Illinois, Iowa, and St. Louis.

The Literary Digest straw poll covering 38 states shows Franklin D. Roosevelt with 53.3 per cent of the vote, followed by Herbert Hoover with 39.9 per cent, and Norman Thomas, the socialist candidate, with 5.6 per cent. The results were led in six New England states and New York, Illinois, Iowa, and St. Louis.

While the Digest poll has been a moderately accurate indicator in the past, the magazine says "Time" suggests that it may not be so accurate in the Republican cause and James A. Farley, Roosevelt's campaign manager, has said that he does not believe the Digest poll is accurate.

The New York Times (Roosevelt) far partly attributed the "Time" suggestion to the fact that the Digest poll was based on an expected pronouncement of Roosevelt, assuming the election would be held.

James Johnson, distinguished spokesman of the Senate from California, who is known as the President's political philosopher, told the Times: "Bush while receiving training from supporters of Roosevelt does not support the president at all." In 1928, George W. Norris, the neophyte of the Progressive Republicans and a weighty

SAFETY ASSURED KIDNAP VICTIMS

Very little news went from Canada to the United Kingdom in September, only 4,262 bushels of wheat were shipped to Britain. The total export, however, in the first two months of the crop year was 1,620,000 bushels valued at \$79,177 and compared with exports of \$22,500 a year ago.

NEWCHANG, Manchuria, Oct. 15.—The safety of Mrs. Kenneth Davy and Charles Cockman, British subjects who have been held by

bandits near here for more than a month, was considered assured, to-day.

British Vice Consul Clarke and a Captain Staples, returned today from hospital here Friday from their release after being held for 10 days near Shizhuan Tuesday. His car turned over after skidding on the ice, trapping him, his driver, a companion who saw him hit the ditch and waited on the ice until the bandit was under.

Motor Car Supply Company Ltd. Moves Into Commodious New Quarters

Considered One Of Finest Buildings Of Kind In Canada

New Home Constructed Entirely by Labor Secured in Edmonton

The Motor Car Supply Co. of Canada Ltd., has just completed the transfer of their stock from the temporary building in Jasper to their new quarters at 10130-105th Street. The company occupied the temporary building for eighteen years until the disastrous fire which destroyed their block forced them to seek new quarters in the Province.

This new building is considered to be the finest wholesale automobile warehouse in Canada and consists of nearly thousand feet of floor space laid out in the most efficient manner.

EDMONTON LABOR

This new building was entirely constructed by Edmonton labor and with Edmonton material. The architects were Messrs. Blakley and Symmonds, and the general contractors were Messrs. Routledge & Allynn.

KEITH-MILLER, LANCASTER ARE SAILING HOME

Aviation Fair Depart on Separate Ships For Europe

NEW YORK, Oct. 15.—Mrs. J. M. Keith-Miller, British aviator, left for home today aboard the ship American Banker. She departed in accordance with an agreement she made with the United States Labor department.

Commissioner Harry E. Hull at Washington said she was not dependent upon the Labor department. Her husband accompanied her aboard the ship and saw her off to her state, however, he did not accompany her.

She is bound for London.

Captain William Lancaster,

MOM 'n' POP

By WOOD COVAN

REG. U. S. PAT. OFF.

WHAT A MESS! HONESTLY, IF I'VE ASKED POP ONCE, I'VE ASKED HIM A DOZEN TIMES TO CLEAN OUT THIS ATTIC.. SHERLOCK HOLMES COULDN'T FIND A BASE DRUM IN HERE WITH A SEARCH WARRANT!

WHY, WHAT'S THIS?... BOTTLED IN BOND... EMPTY.. THAT GIVES ME A HUNCH

THIS STORY ABOUT BOOTLEGGERS/A BOTTLE? REMINDS ME I RAN ACROSS THE MOST PECCULAR LOOKING BOTTLE UP IN THE ATTIC T'DAY

WHAT KIND OF A BOTTLE?

I'VE STRAIGHTENED OUT EVERYTHING UP HERE... AND-- WHERE DID YOU SAY YOU SAW A BOTTLE?

OH, I JUST HAPPENED TO THINK-- IT WAS EMPTY, SO I THREW IT OUT

FRECKLES AND HIS FRIENDS

By Blosser

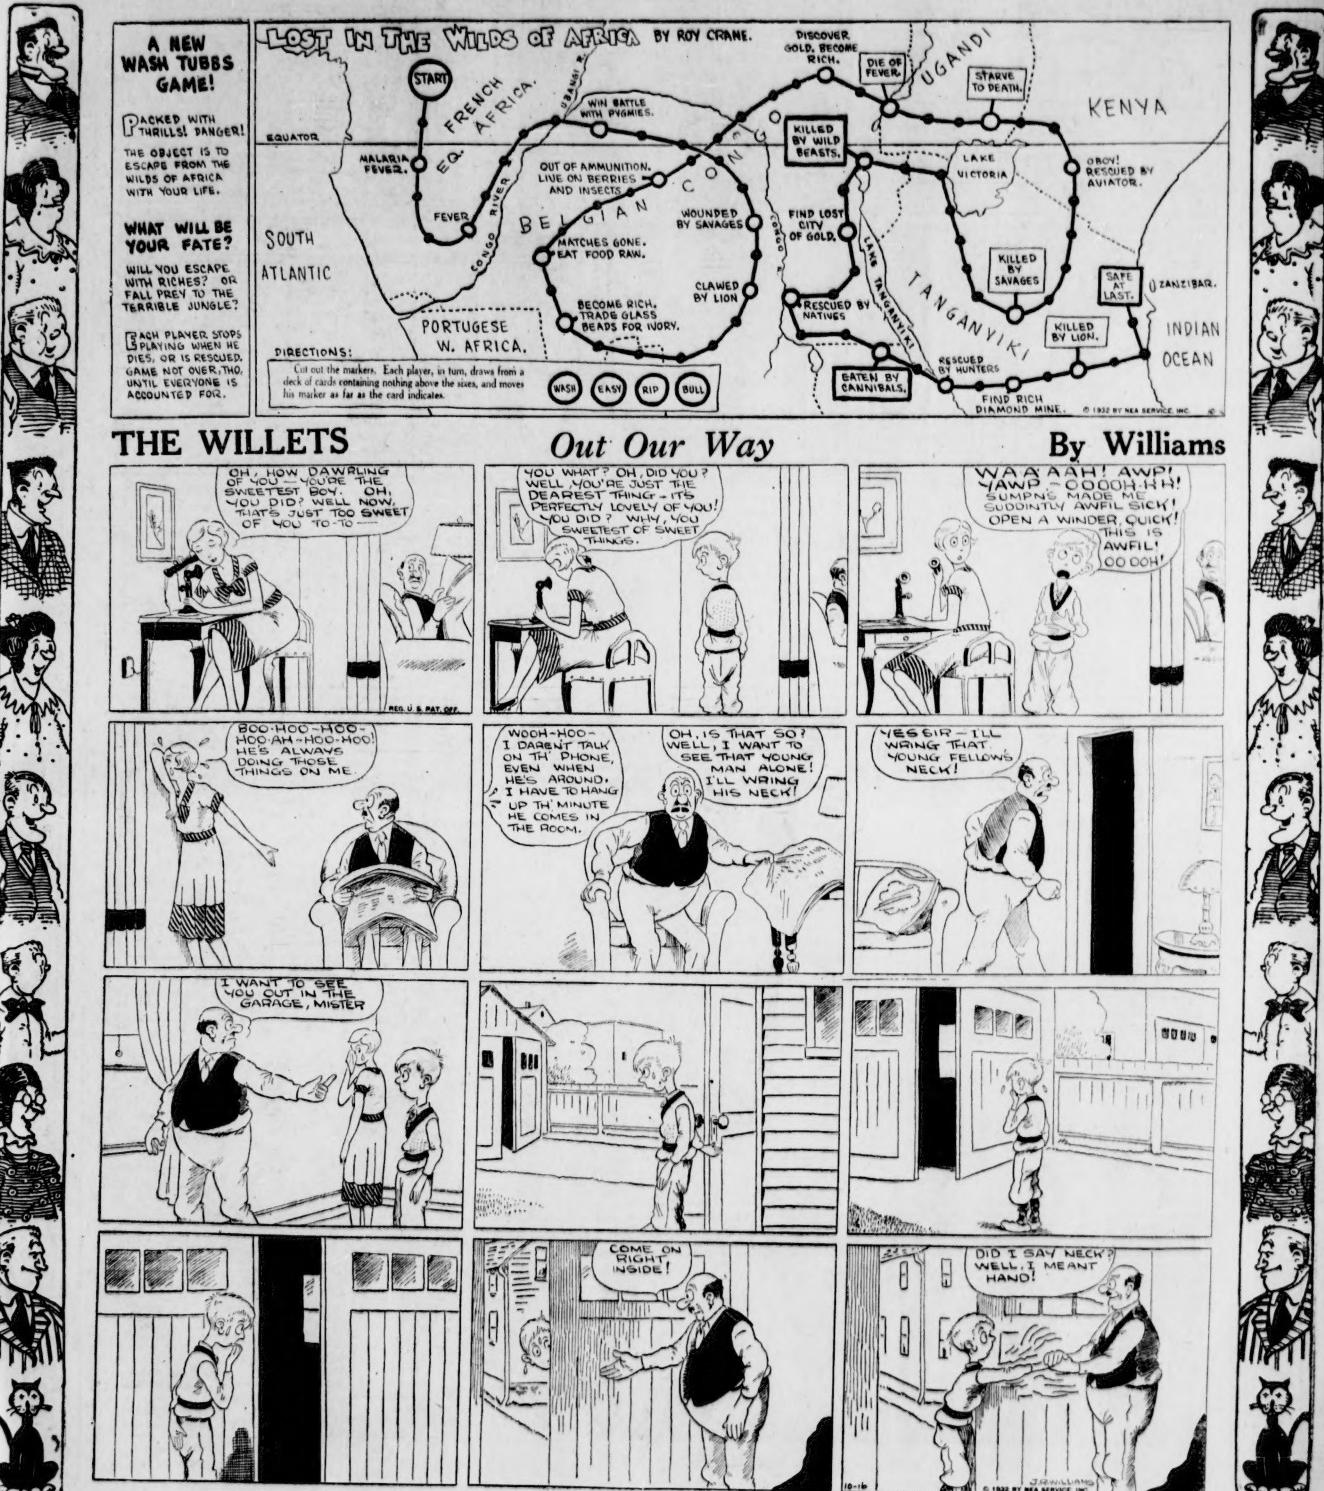

A MAN HAS A SQUARE OF LAND OUT OF WHICH HE RESERVES ONE FOURTH AS SHOWN FOR HIMSELF. HE WISHES TO DIVIDE AMONG HIS FOUR SONS, SO THAT EACH WILL HAVE AN EQUAL SHARE, AND EACH SHARE WILL BE THE SAME SHAPE... HOW CAN HE DIVIDE IT?

TRY THIS TRICK... GET A PIECE OF STRING, SAY TWO FEET LONG--PLACE THE STRING ON THE FLOOR, AND PUT THE THUMB OF EACH HAND FIRMLY DOWN UPON IT. NOW TRY TO STEP OVER THE STRING WITHOUT TOUCHING IT WITH YOUR FEET OR LIFTING YOUR THUMBS.
